Allowable Subject Matter

1. Claims 1, 2, 6, 7, 10-16, 19 and 21-23 are allowed.

2. The following is an examiner's statement of reasons for allowance:

In interpreting the claims, in light of the applicants' arguments and the specification, the examiner finds the invention to be patentably distinct.

In light of applicants arguments' filed November 9, 2005, the rejections of claims 1-2, 6-7, 10-16, 19, 21-23 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over all relevant claims of U.S. Patent Nos. 6,615,291 and 6,614,892 are hereby WITHDRAWN. Likewise, the provisional rejections of claims 1-2, 6-7, 10-16, 19, 21-23 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over all relevant claims of copending application nos. 09/618,538, 09/626,489 and 11/178,338 are hereby WITHDRAWN.

Further, in light of the applicants' arguments filed November 9, 2005, the rejection of claim 23 under 35 U.S.C. 102 is hereby WITHDRAWN. The applicants argued in substance that the prior art of record fails to teach "a controller adapted to cause the transmission unit to transmit the plurality of its own address data **regardless** of which one of the plurality of communication lines is used for transmission" as claimed. The examiner agrees with the applicants that the prior art of record teaches transmitting only the Internet addresses when communication is initiated over the Internet.

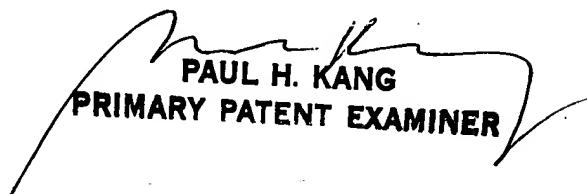

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
